LINCOLN’S LASTING LEGACY GRADES 6-8
Abraham Lincoln Birthplace

Presented by: Natalie Barber, Park Ranger
Thursday, March 1: 10-10:50am CT and 1-1:50pm CT

The memorial at the Abraham Lincoln Birthplace does not only house a historic cabin, but an idea: the potential of the individual in a democratic republic. In 1911, America was an emerging global power and one of the few democratic republics in the world. Many of the countries with long illustrious histories were led by individuals who were members of aristocracies and power. In memorializing Lincoln's birth in a humble Kentucky cabin, America memorialized the possibility for every citizen in this republic. We will explore Lincoln’s Kentucky roots and rise to the presidency as the very symbol of the American dream.
When former General Ulysses S. Grant was inaugurated as our 18th President, he not only brought his fame as a war hero to the office, but he also brought his ethics and ideals. Nowhere is this more evident than in Grant’s commitment to civil rights for all citizens. This session explores how Grant’s personal beliefs shaped the conversation surrounding civil rights, and set the stage for America’s current legal system.
WHAT IS LIBERTY? ABRAHAM LINCOLN’S BRAVE IDEA Grades 4-12
President Lincoln’s Cottage

Presented by: Michelle Martz, Program Coordinator
Tuesday, March 13: 10-10:50am CT and 1-1:50pm CT

For a quarter of his presidency, President Lincoln chose to move his family from the White House to a cottage on a hilltop overlooking the city. They made this move three summers in a row, in the midst of a war that threatened the country they held so dear. Here Lincoln said, “my thoughts—my solicitude for this great country follows me wherever I go.” This place allowed Lincoln the time, space, and environment to create brave ideas that changed our nation. During the Civil War, Lincoln struggled to define the word “liberty.” During this program students will learn about his struggle, and at the conclusion of the program, students will create their own definitions of “liberty” that encompass their own brave ideas for their communities.
The program will focus on Theodore Roosevelt’s legacy to the modern presidency, focusing on his expanding use of executive powers. He believed that the President had the right to use all powers unless specifically denied, which led to his domestic program the “Square Deal.”
THEODORE ROOSEVELT AND THE ANTIQUITIES ACT OF 1906 GRADES 6-12

Theodore Roosevelt Birthplace National Historic Site

Presented by: Allison Luchnick, Park Ranger

Wednesday, March 21: 10-10:50am CT and 1-1:50pm CT

This session will explore how Theodore Roosevelt's childhood experiences greatly influenced his politics later in life. Childhood books, journals, hobbies and letters showcase just how much he enjoyed studying, observing and hypothesizing about the natural world. After becoming president we see Roosevelt's interests in the natural world and his politics intersect. Roosevelt signed into law the Antiquities Act on June 8,1906. This law gives the President of the United States the authority to, by presidential proclamation, create national monuments to protect significant natural, cultural, or scientific features.
